

## Tech Update: New Universal Euro Grill & Grill Boost

### GRE- 06, 07, 08 Euro Grill/Boost    GRE- 16, 17, 18 Euro Grill Only

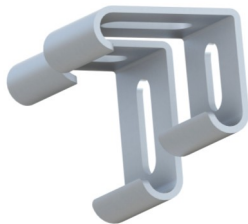

Wilson Elements continues to expand its universal range of elements & service components with the release of our latest innovative service design. Suitable for a large range of European based grill & grill boost applications with central mounting.

**Not content with just replacing**, the new grill design extends on Wilson elements fix on the spot advantages with the addition of improved performance for the end customer, with **enhanced grill plate coverage** that offers the user better cooking.

New bracket & fixing hardware offers easier infield repairs and improved customer satisfaction.

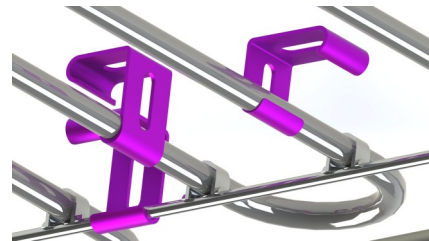

More even grilling with increased element coverage (8 element runs) for better grill area coverage & for more even grilling performance.

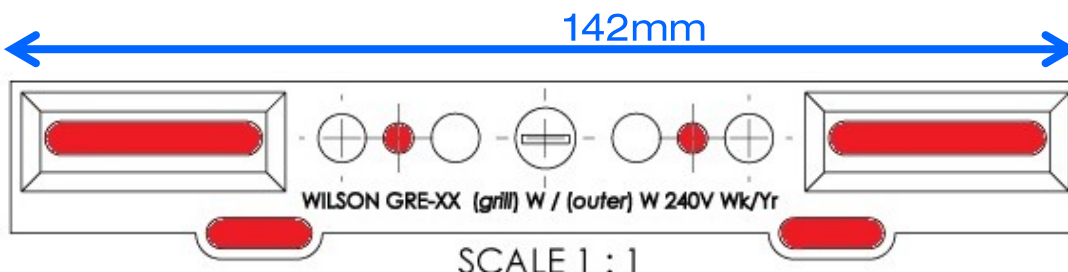

### Mounting

New design reversible hang support offers flexible mounting options - Fitting support bar or element with 25 & 15mm height/spread selection.
